- Reflectors, Transflectors, 2-Color Laminated Sheets for Engraving or Backlighting

*Edge Light guides and light guide panels for edgelit displays
Custom produced for each application, to maximize uniformity and brightness*

CLAREX BLUE OCEAN REAR PROJECTION SCREEN

- Revolutionary monolithic screen with wide viewing angle, high contrast, true color reproduction, accepts any resolution projector.
- Rigid acrylic sheet can be bent, thermoformed, sawcut, drilled, routed
- Clarex Blue Ocean screens do not retard polarization and pass IR signals

Our cast acrylic does not retard polarization and does not have birefringence issues

CLAREX HSOT SHEETS and RODS

- Clarex HSOT shapes contain light scattering particles which illuminate uniformly when lit from any angle
- Can be machined into buttons or other shapes

Please contact us for more information and fast, reliable quotations

Astra Products also supplies:

- High impact acrylic, with and without scratch resistant coating
- Polycarbonate with scratch resistant coating and / or non-glare surface
- Extruded acrylic sheet with scratch-resistant coating, and/or reduced glare coating
- Laser Cutting • CNC Routing • Precision Saw Cuts
